AV/Picture Presentations Format When Prepared by The Family

AV/Picture Presentations **must be in .mp4 format with music as part of the presentation.** (Suggested transitions 5 seconds, with 40 photos & music 3 - 5 minutes long). Roughly 10-11 photos per minute of music.

(Picture Presentations must be in .mp4 format) Charges will be incurred if the presentation is not in **.mp4 format (\$330)**

IMP will invoice the family direct for the AV/Picture Presentations or changes to the correct format.

We suggest you use an adult photo as the first and last photo, starting the music on the second photo and end the music in the middle of the last photo. When scanning the photos, it is best to crop the photo at the time of scanning.
